

Start up and Incubation

Assam Engineering Institute has started its Start Up and Incubation Cell since 2021 and it was decided to allot a start up oriented project to each student while they are in 4th Semester of their respective programme.

Lectures and Seminars were also conducted in this lecture.

Seminar by Dhruv Sampat on Startup and incubation

Out of Different projects , the Mechanical Engineering Deptt student of 2020 batch has come up with a good start up potential project on Metal Embedded Cane furniture .

Similarly , again from the Mechanical Engineering Student of 2022 batch , another good potential packed project on Herbal Soap making has come up so far.
